TWIN LENS REFLEX CAMERAS

PHOTOGALLERY OF
TLR, PSEUDO TLR, STEREO TLR, CINE TLR, SPY TLR, TOY TLR
AND ONE REFLEX FINDER BOX CAMERAS

KAREL MEDULÁN

V01-2025

Dear Collectors,

If you come across any TLR or cine camera that fits these categories but is missing from this gallery, please share a link or send an image (JPG, PNG, WebP, PDF, or EPS). I aim to keep this visual record as up-to-date as possible.

The purpose of this gallery is not to replace existing technical catalogs, but to illustrate the evolution and, above all, the aesthetic beauty of these devices.

As a photographer, I deeply respect intellectual property. Given the vast scope of this project, it was not always possible to trace every original creator to obtain formal permission. If you identify a photograph as your own and do not wish it to be included, please provide proof of authorship, and I will promptly remove it and find a replacement.

If you find this catalog valuable and would like to support my work, any small donation (e.g., 5 or 10 EUR/USD) is greatly appreciated. You can send your contribution to the account below (see QR code). Thank you, and I hope you enjoy discovering these brands, models, and the unique details that define them!

Yours Carlos Snap
